

# PUTTING YOUR ANIMATION TOGETHER

(CHEAT SHEET)

## iMovie:

### (1) "Create New Project"

\*\*\*SAVE THIS PROJECT IN DOCUMENTS FOLDER ON YOUR COMPUTER\*\*\*

iMovie FILES on the Server WILL BE DELETED.

### \*\* (2) CHECK PREFERENCES: (\*\*If necessary)

iMovie → Preferences → IMPORT (tab) → select "Movie Timeline"

### (3) IMPORT ALL YOUR PICTURES AND SOUNDS

File → IMPORT

- Import your whole Animation Folder
- Import any Sounds (.mp3 or .wav files you have already saved )
- Import your GarageBand .mp3 (NOT .band)

### (4) Set TIME for pictures

"SELECT ALL" clips in your timeline

MEDIA → Photos → Show PhotoSettings

0:00:03 - is fastest and works if you are lucky

0:00:15 - is slow and choppy, but guaranteed to work

:00:03 -:00:14 - MAY NEED TO BE DONE BY HAND ☹ if you are UNlucky

### (5) CROPPING SOUND

Sound will not "push in" or crop IF VOLUME LEVELS ARE SHOWING  
VIEW → Show Clip Volume Levels (Deselect)

### (6) FADE IN/OUT

TURN ON Volume levels for Fade in/Fade Out

VIEW → Show Clip Voume Levels (select).=

### (7) EXPORT iMOVIE as an .mov (Quicktime):

SHARE → SHARE → expert settings (pull down) → SHARE (button)

Save this .mov into the FINISHED ANIMATION folder.

## Garage Band:

### (1) "Create New Project"

### (2) Add Tracks

Track → New Basic Track

### (3) EXPORT as .mp3 (SAVE IN ANIMATION FOLDER)

Share → Export song to Disk → mp3 encoder (pull down) → EXPORT
